A STORY, A LOCATION

- **PLASTIQUES DELVALLEE** WITH YOU FROM CONCEPT TO COMPLETION OF YOUR PROJECT.
- SPECIALIZED IN THE MANUFACTURE OF PARTS (SIMPLE OR COMPLEX)BY PLASTIC INJECTION , THE COMPANY **PLASTIQUES DELVALLEE** HAS BEEN FOUNDED IN 1964 IS HEADQUARTERED IN VILLETHIERRY .
- IDEALLY LOCATED AT THE INTERSECTION OF THE LIMITS OF THE ILE DE FRANCE, THE LOIRE VALLEY , ALSACE -LORRAINE -CHAMPAGNE ARDENNE AND BOURGOGNE FRANCHE COMTE

PARIS – 110 KMS

CHARTRES – 160 KMS

ORLEANS – 150 KMS

TROYES – 90 KMS

LYON – 380 KMS

EXPORT TO :

GERMANY
SPAIN
UNITED STATES
GREAT BRITAIN
POLAND
SWEDEN
INDIA
KOREA

JUNE 1964 – CREATION OF "PLASTIQUES DELVALLEE"

1969 – STARTING OF THE BRUSHES SECTOR

1974 – MOVING – NEW LOCATION

1979 –STARTING OF THE DRUMS SECTOR

1980 – STARTING EXPORT DRUMS / EUROPE (GB, D)

1990 – STARTING ROBOTISATION

1993 – STARTING EXPORT BRUSHES / ESPAGNE

1996 – NEW CHAIRMAN M AYAD

2008 – STARTING PLV'S SERCTOR

2015 – TAKEOVER BY M SALVATORE BOSCO

WE ANSWER IN PRODUCTION APPLICATIONS FOR SMALL, MEDIUM AND LARGE SERIES IN MANY INDUSTRIES.

OUR TEAMS AND PROVEN KNOW-HOW **GUARANTEE TO YOU RESPONSIVENESS** AND IMPECCABLE **SERVICE**.

WE INTEGRATE, TO OUR SERVICE, SUPPLIERS AND PARTNERS, CHOSEN WITH **PARTICULAR CARE** , TO BRING YOU A **COMPLETE ANSWER** TO THE HIGHEST DEMANDS IN TERMS OF **COST, QUALITY AND DELAY** .

THE INTEGRATION OF ROBOTIC TECHNOLOGY SOLUTIONS IN OUR PRODUCTION FACILITIES, CONSISTING OF 9 INJECTION PRESSES FROM 90 TO 800T , ALLOWS US TO OBTAIN MOLDINGS OF GREAT AMPLITUDE OF DIMENSIONS AND THICKNESSES (30 G TO 4 KG).

OUR GOAL , IN DIRECT RELATIONSHIP WITH YOU, BRING YOU THE BEST IN TERMS OF **PRODUCT, QUALITY AND PRICE FOR A SHARED SATISFACTION**.

Mastered Cost

Premium Quality
& Service

Tool's Service

Galvanizing

Integrated Solution

PLASTIQUES DELAVALLEE
offers you a **complete solution integrating different trades** (Engineering, Mould maker , Injection, galvanizing , assembly , ...)
To guarantee you the Best Service , Best Quality, mastered cost With A single interlocutor,

ENGINEERING

We meet your needs for design and prototyping, through our partner design office, and our Public / Private partnership with the Lycée "Curie et Janot"

- Statement of coast lines,
- 3D numerical modeling (farrow arms, laser scanner) possible on customer site.
- Reverse engineering (for the development of products with complex geometric shapes)
- Structural calculations for the optimization of products from the design phase

MOLDS CONCEPTION

The tools are crucial, they condition the entire project. We ensure the design and implementation.

We provide high quality molds, designed to your requirements, Our solutions (single and multi-cavity, finish ...) , provide you the right price and the best economic- industrial compromise

GALVANISATION

We provide a solution to your needs Metal finishing, galvanizing, with our **partner leader** in the sector of galvanizing of plastic components, specialized in finishing of products for the market of perfumery and cosmetics

We support our customers to the maximum, giving equal weight and attention from the study to after delivery.

PLASTIC INJECTION

A recognized expertise: thin pieces or large thickness parts, soft or hard parts, opaque or transparent parts, decorative parts, over moldings ...

Additional services: assembly, ultrasonic welding, gluing, Painting, flocking, screen printing, metallization and chroming;

PLASTICS AND THE COLORANT

- **Plastiques DELVALLEE** offers you its experience and its knowledge of plastics raw materials,
- Depending on the application, the thermal and mechanical characteristics, we can offer different types of thermoplastic materials, each with specific characteristics.
(self-lubricating, self-extinguishing, anti-corrosion, anti-shock, Food, ...)
- We know also produce parts made from bioplastics (vegetable carbon).

| MATERIALS | ADVANTAGES |
|----------------|--|
| Polyamides | Temperature resistance, self-lubrication, strength, excellent electrical properties, resistant to conventional solvents and hydrocarbons |
| Polystyrenes | excellent rigidity, tinted transparency, color, scratch resistance, glossy and hard surface, resistance to chemicals and atmospheric agents |
| Polycarbonates | Excellent mechanical properties (unbreakable), electrical properties, dimensional stability, UV resistance, good transparency, self-extinguishing, waterproof steam Food |
| Polypropylenes | Extraordinary resistance to bending, electrical and mechanical properties, excellent resistance to chemicals |
| Polyurethanes | Good resistance to solvents, oils and fats, flexibility, folding endurance |
| PMMA | Very good light, light transmission, polishes easily, highly resistant to shocks, resembles glass, resistant to temperature (<80 °C), good UV resistance, welds and adhesive |
| ABS | Rigidity, dimensional stability, resistance to temperature, shock, Food |
| Polyethylene's | Rigidity, surface gloss, temperature resistance, chemical inertia, lack of stress cracking |
| Polyacetal | Rigidity, excellent hardness, mechanical property, fatigue resistance, corrosion resistance, Chemical resistance to hydrocarbons, springy |

But also :

Fiber reinforced plastics, Polysulfones, SURLYN, BONBOUT, NAS 21, elastomers, etc.
Dyes RAL standards, and / or dupes.

PACKAGING : OUR RING BARRELS FOR WIRE MILL

PLASTIQUES DELVALLEE also offers its **own products** .

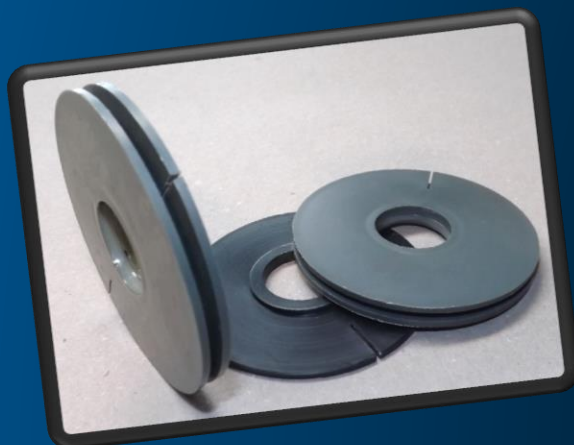

- STACKABLE AND REUSABLE PACKAGING , THE RING-SHAPED DRUMS, SMALL OR LARGE MODEL , WITH CIRCULAR OR OPPOSITE HANDLE , PROVIDE AN EFFECTIVE AND CONVENIENT PACKAGING SAFE FOR HIGH-VALUE AND FIBER OPTIC CABLES.
- THE INSERT WITH A RIBBED ANCHORING SYSTEM ELIMINATES THE RISK OF DEFORMATION OR ENTANGLEMENT OF THE WIRE DURING SHIPPING AND HANDLING.
- ACHIEVEMENT OF DURABLE AND RECYCLABLE MATERIAL .
- POSSIBLE CUSTOMIZATION (COLORS, LABELS AND LOGOS) .

PACKAGING : Design Collaborative supports for winding

PLASTIQUES DELVALLEE OFFERS A RANGE OF COILS
SPECIALLY ADAPTED TO YOUR SPECIFIC NEEDS AND
DESIGNED TO YOUR SPECIFICATIONS ,

AMONG OUR RANGE , FLEXIBLE COILS
PLASTIQUES DELVALLEE PROVIDE CONVENIENT
PACKAGING WHILE SIMPLIFYING HANDLING OF THIN WIRES.

INDUSTRY : COLLABORATIVE DESIGN FOR BRUSHES SUPPORTS

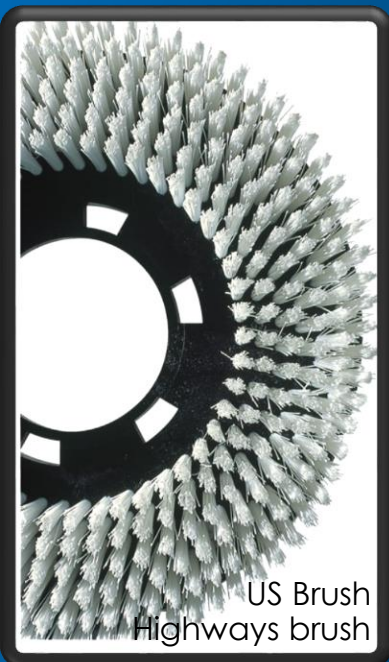

PLASTIQUES DELVALLEE OFFER A WIDE RANGE IN BRUSHES SUPPORTS
(OVER 100 REFERENCES)

- SUPPORTS FOR STREET CLEANING BRUSHES
- WITH OR WITHOUT WATER HOLE
- ASSEMBLING ACCESSORIES (DRIVERS , COUPLING ...)
- BROOM DISPLAY
